1. All net controllers are responsible for trading dates with another Newport Beach RACES member if they cannot handle the net on their assigned date. Please notify the Radio Officer, or an Assistant Radio Officer if you are trading nights so that we can keep the schedule current.
2. Before the net, be sure to check-in with the O.C. RACES net beginning at 1900 hours on 146.895 MHz using minus shift and CTCSS tone 136.5 Hz.
3. Assistant Net Control should be prepared to initiate or continue the roll call at any point.
4. Be sure you are using the most recent version of the RACES Roll Call list.
